**LENNAR MARE ISLAND, NOTIFICATION REGARDING THE SELF-IMPLEMENTING
ON-SITE CELANUP AND DISPOSAL OF PCB SITES INSIDE BUILDING 866 WITHIN
INVESTIGATION AREA C2, FEBRUARY 28, 2005**

Dear Mr. Morris:

The Department of Toxic Substances Control (DTSC) has reviewed the Self-implementing Cleanup and Disposal of PCB Sites inside Building 866 (AL#01, AL#04, AL#05, UL#01, and UL#02) in the Eastern Early Transfer Parcel (EETP), Investigation Area C2. Building 866 is currently unoccupied and cleanup activities will be preformed in conjunction with the building deconstruction. During deconstruction, each of the areas where PCB concentrations are greater than 1 mg/kg will be handled separately from the rest of the building and disposed of properly. Based upon the available information, DTSC has no further comments at this time and you may proceed with the cleanup and disposal of these sites.

Should you have any questions, please contact me at (510) 540-3759.

Sincerely,

Henry Chui, P.E.
Remedial Project Manager
Office of Military Facilities
